

NEW!

Introducing Roxio Toast 17

By Peter Baldwin

Wednesday, August 1, 2018

Now delivering 64-bit power, Roxio Toast 17 offers dramatically enhanced video editing capabilities with new MultiCam Editing, making it easier to produce video using clips from multiple cameras. Options include not just switching between camera views but picture-in-picture effects.

About Roxio

Brought to you by Corel, the Roxio brand of products provides consumers and businesses with powerful tools to make the most of their digital media. Whether you're working with photos, video, or amazing gameplay, Roxio tools give you the power to preserve, make, store, and share your digital creations.

My Comments:

Roxio Toast has always been a powerful tool for capturing and sharing photo and video content from your Mac.

I have been using Roxio Toast for many years and can highly recommend this app.
